SUMMARY

Motivated and detail-oriented Software Engineer with hands-on experience in web and cross-platform mobile application development. Skilled in Java, C, JavaScript, React.js, HTML, CSS, Flutter, and Dart, with knowledge of AWS (Lambda, API Gateway, DynamoDB, S3). Strong understanding of software development principles, REST API integration, UI/UX design, and Git. Passionate about building scalable and user-focused applications while continuously learning new technologies. Seeking an opportunity to contribute and grow in a collaborative environment.

EDUCATION

Bachelor Of Management of Information System

Oct 2022 – Present

NSBM Green University

- Undergraduate

Advance Level

2017 – 2019

Norwood National College

- Engineering Technology – Pass

Ordinary Level

2015 – 2016

St Mary's National College

- Pass

WORK EXPERIENCE

Flutter Developer Intern – Appitura

October 2025–May 2026

- Contributing to the development of a real-world booking application
- Built and implemented complete frontend features using Flutter (Dart)
- Integrated REST APIs for booking flows, user authentication, and dynamic data handling
- Currently working on backend development using AWS Lambda, API Gateway, and DynamoDB.
- Ensured seamless communication between mobile frontend and cloud backend
- Focused on performance optimization and smooth user experience

Cashier – Asia Asset Finance PLC (Bogawanthalawa)

April 2022 – Oct 2022

- Completed a 6-month training in cash handling, customer service, and financial transactions.
- Maintained accurate records while delivering high-quality service.
- Strengthened time management, attention to detail, and communication skills.

PROJECTS

Waste Food Management (Flutter Mobile Application)

- Built a Dart & Flutter-based app connecting donors with people in need to reduce food waste.
- Implemented Firebase backend for data storage and real-time updates.
- Designed intuitive UI/UX using Figma and Flutter widgets.

Mini Ecommerce Website (React.js Web Application)

- Developed a mini e-commerce website using React
- Implemented product ordering and detail pages
- Added shopping cart functionality with dynamic updates

Mini E-Commerce Website (Java Web Development)

- Built a Java-based e-commerce platform with JSP/Servlets & MySQL
- Integrated user auth, product catalog, cart & order management
- Ensured scalable, secure architecture with an intuitive UI

School Website (Html, CSS, JS)

- Developed a responsive web application using HTML, CSS, JavaScript.
- Ensured cross-browser compatibility and optimized performance for faster load times.

Employee Management System (MERN)

- Built a MERN Employee Management System with CRUD operations
- Implemented attendance tracking, salary insights, and department analytics
- Designed a responsive UI using React.js, HTML, and CSS

Waste Food Management App (UI/UX Design)

- Designed a user-friendly mobile app interface in Figma
- Aimed to encourage food donation and minimize waste
- Focused on intuitive navigation and clean layouts

BookMyShow App – (UI/UX Redesign)

- Redesigned BookMyShow app UI in Figma
- Focused on modern visuals & improved navigation
- Enhanced user experience for seamless ticket booking

SKILLS

- Frontend Development: React.js, HTML5, CSS3, JavaScript, Responsive Web Design
- Mobile Development: Flutter, Dart, Android/iOS Cross-Platform Development
- UI/UX Design: Figma, Prototyping, Wireframing
- Backend & Databases: Node.js, Express.js, PHP (Basic), MySQL, MongoDB (Basic)
- Content Management System: WordPress (Site Building & Customization)
- Programming Languages: Java, C, Python
- Tools & Practices: Git/GitHub, Agile, REST APIs, VS Code, Power BI, Photoshop
- Cloud & AWS (Learning): AWS Lambda, API Gateway, DynamoDB, Amazon S3
- Soft Skills: Time Management, Leadership, Communication, Problem-Solving

LANGUAGES

- Tamil, Sinhala, English
